## Bfast gives you:

### Easy Invoicing

- Send professional-looking, easy-to-read invoices in just a few clicks — anytime, from any computer, iPad, etc.
- See who owes you money at a glance.
- Customise invoices with your own logo, message, and detailed payment information.

### Easy Reporting

- Track expense as you incur them with Bfast's ridiculously easy expense tracker.
- Bfast remembers your previous expenses so you don't have to completely re-key repeat expenses.
- Generate a yearly report for your tax return with a single click.
- Bfast adds up all your invoices, expense deductions and PAYG instalments, and tells you exactly what to write on your BAS. No more spreadsheets!

### Easy Living

- Experience the coolest, most user-friendly interface ever. No need to read the manual - it's point and shoot all the way.
- Record regular expenses (like bills and rent) with a single click.
- Record partial business expenses with a % business use. No more manually calculating how much to claim.

Working for yourself shouldn't be all hard work.

## Perfect for Freelancers

Bfast is limited to just the functions needed by freelancers: invoices, BAS calculation, and yearly tax return reporting. That's it!

## Perfect for Australians

Bfast is just for Australians. It has a direct link to the Australian Business Registry, and complies with all ATO requirements for GST and PAYG.

## Perfect for Your Budget

The lowest monthly fees of any Australian accounting software, and you only pay for the months you use. Also, your first 45 days are FREE.
